TRANSMITTAL

The following documents are submitted in the above-referenced patent application:

1. Statement under 37 C.F.R. § 3.73(b);
2. Revocation of Power of Attorney with New Power of Attorney and Change of Correspondence Address, signed by Assignee; and
3. Copy of unsigned Revocation and Power of Attorney and Change of Correspondence Address.

Documents 1 and 2 were submitted to the U.S. Patent and Trademark Office on November 12, 2007. According to the Examiner, however, the Revocation and New Power of Attorney was not entered because the Customer Number was not completely legible, presumably because the Assignee returned it to the undersigned agent via facsimile.

As stated on the Transmittal that was also filed on November 12, 2007, the Revocation and New Power of Attorney appoints the practitioners associated with Customer Number 26191, and requests that the correspondence address be changed to the address associated with Customer Number 26191. This is evidenced by the attached Document 3, which is a copy of the document originally sent to the Assignee for execution.
